<http://ojs.excelingtech.co.uk/index.php/IJSCM/issue/view/106>

International Journal of Supply Chain Management (IJSCM) is a peer-reviewed Journal [ISSN: 2050-2050-7399 (Online), 2051-3771 (Print)] that publishes original, high quality, supply chain management empirical research that will have a significant impact on SCM theory and practice. Manuscripts accepted for publication in IJSCM must have clear implications for Supply chain managers based on one or more of a variety of rigorous research methodologies. IJSCM also publishes insightful meta-analyses of the SCM literature, conceptual/theoretical studies with clear implications for practice, comments on past articles, studies concerning the SCM field itself, and other such matters relevant to SCM.

Regular articles accepted for publication in IJSCM must have clear implications for practitioners who manage product and process design, operations, and supply chains based on one or more of a variety of rigorous research methodologies. Manuscripts accepted for publication must meet the following criteria:

1. Research papers in the field of SCM in manufacturing and services.
2. Research rigor applied through the scientific theory-building approach.
3. Managerial relevance.
4. All manuscripts should be submitted in English.

Scope

General topics covered by the journal, while not exclusive, include the following:

- Supply Chain processes in manufacturing and service organizations
- Upstream supply management
- Downstream demand management
- Supply Chain strategy and policy
- Technology management for supply chain
- Supply chain planning, scheduling and control
- Human resource management for supply chains
- Supply Chain Performance measurement and productivity
- Purchasing/sourcing management
- Materials and inventory management
- Logistics, transportation, distribution, and materials handling
- International and comparative supply chain operations
- Operations and information management
- Sustainable supply chain operations
- Global supply chain
- Supply chain planning and operations
- Regulatory and environmental issues in supply chain operations

Author Guidelines and Review Process
